

NEW FACTORIES
ALONG RAILROAD

Illinois Central Has Se-
cured Two Hundred
New Factories
for Cities.

WORK COMPLETED

Agent for the Company Drops
Dead After Finish-
His Hard Labors
of Past.

Chicago, Oct. 27.—Through the of-
fices of the industrial department of
the Illinois Central Railroad there
were located along the lines of that
company during the year ended June
30, 1903, a total of 206 new industries,
representing an investment of \$8,964,
500, and employing 10,116 people.

This remarkable record of industrial
growth is disclosed by the report of
the late George C. Power, industrial
commissioner of the Illinois Central
Railroad Company and its allied lines.
This report shows that on the Illinois
Central Railroad proper 132 industries
were located, representing an invest-
ment of \$5,730,900 and employing 6,
820 hands.

In the South,
On the lines of the Yazoo and Mis-
sissippi Valley 74 new industries were
started, representing capital invested
to the amount of \$3,234,500 and em-
ploying 3,556 people. Of the southern
states industrial activity seems to
have been the greatest in Mississippi.
Illinois also shows a remarkable
growth, with forty-four new industries,
employing all the way from a few to
200 people.

The preparation of this report was
the last work Mr. Power did. Word
was received by the officials of the
company that the commissioner had
dropped dead on the street in the
city of Minneapolis, where he had
gone to spend his vacation with his
sister.

Holders of Securities.
"Are there a million owners of rail-
way securities in the United States?"
In reply to this question Thompson of
the bureau of railway news said:
"The question was undoubtedly
suggested by the interest and sur-
prise excited by the statement of
President Stuyvesant Fish that the
stock of the Illinois Central Railroad
company is held by 8,647 stockhold-
ers, of whom an overwhelming ma-
jority own less than 100 shares
apiece. That much popular ap-
prehension prevails in regard to this
is proved by the manner in which Mr.
Fish's statement has been received."

NO HANDICAP ON
LOVE-MAKING

School Committee Report Adversely
on Special Policemen Appoint-
ments—Miss Davey Gets Money.

The city fathers do not believe in
handicapping love-making apparently
for last night they accepted the re-
port of the school committee which
was unfavorable to the appointment
of school janitors as special police-
men.

According to some of the Milwaukee
and Chicago papers starting
things had been taking place in this
quiet city and ordinances drawn up
and passed concerning the regulat-
ing of osculating in public. Most
of these must have originated in the
fertile brain of the yellow journal-
ist.

The councilmen agreed that it
was best to pay Miss Rose Davey
the sum of \$75 for the injuries that
she sustained as the result of a de-
fective sidewalk. It was said that
the circumstances were such that it
was unlikely that the plaintiff could
recover anything before a court but
it would be more doubtful with a
jury. Judge Sale advised the set-
tlement and the vote showed the
balance of the council was of the
same mind. Miss Davey fractured
the bones of one of her arms and
brought damages against the city.

SCHWAB'S COUSIN
WAS STARVING

Relative of the Steel Magnate Was
in Dire Need in Vienna
When Found.

Vienna, Oct. 27.—A man named
William Schwab, who has been play-
ing recently in a Vienna theater un-
der the name of Salls and who has
been missing for some days has just
been found in a starving condition.
He has in his possession papers
which seem to show that he is a
cousin of Charles M. Schwab, for-
mer president of the United States
Steel corporation, and he has an-
nounced his intention of going to
America to seek assistance from his
relatives.

Endurance of Guns.
The maximum endurance of a 12-
inch gun is 300 firings, while the six-
inch gun may be fired upward of 2,000
times without injury.

RENEWED INTEREST
IN HUMANE SOCIETY

Four Attorneys Offer to Prosecute Free
of Cost, All Offenders—Special
Meeting This Evening.

A special meeting of the Janes-
ville Humane society is to be held
this evening at the residence of Mrs.
E. F. Woods. Various committees
will be appointed for special
branches of the work and a year of
thorough and useful work is antici-
pated.

Increased Interest Shown
The local society is a branch of
the Milwaukee organization; E. B.
Helmstreet is president and S. B.
Kenyon is agent. The members and
officers work without any recom-
pense other than the satisfaction of
befriending little children and the
dumb beasts. Hitherto only an an-
nual meeting has been held. Of late,
however, increased interest has
been manifested and the society is
preparing for a vigorous campaign
against wrong-doers.

Janesville a Good Town
Four attorneys of this city, M. U.
Jeffris, J. J. Cunningham, Charles
E. Pierce and William Smith, have
volunteered their services free in
the prosecution of any case that
may come up. Janesville, com-
pared to other cities, is in general a
good town, so far as the abuse of
children and animals is concerned.
There are, however, a few cases
from time to time.

To Be Published
A book of record has been secured
and hereafter all cases arising will
be made public. No one need be
deterred from making complaints
because of the fear that he will be
brought into the case. The officers
will attend to the matter without dis-
closing the source of their informa-
tion. A case of a little two-year-
old blind child that was brutally beat-
en by a drunken father some time
ago, the latter having fled from the
city, will be reported tonight.

SMOKE COMMITTEE
STILL SMOKES

Rent of Municipal Court Room To
Be Referred to the County
Board.

It was suggested by Alderman
Judd last evening that although the
"smoke committee" had agreed that
the chimneys generally, in the down-
town district, ought to be higher,
that as cold weather was approach-
ing the annoyance from this source
would not be noticeable until spring,
as doors and windows were kept
closed and it was only when there
were opened that the smoke caused
the trouble, that the committee be
discharged for the winter months.
Several objections were made to
this plan, however, and the commit-
tee was ordered to continue its
work.

The committee appointed to see
Judge Field in regard to the rent
of the municipal court room, reported
that the judge requested that the
matter be placed before the county
board at their next meeting as he
would not sanction any increase in
expense. It appeared that Judge
Field claimed he had made ar-
rangements when the court was
moved to its present location, that
there would be no greater rental or
outlay than in its former quarters.
This was \$500 and covered janitor
service, light and heat. Judge
Field said further that the municipal
court could not afford to pay more
and would move again in preference
to doing so. The council agreed
that the matter should be brought
before the county board at the
next meeting which occurs early in
November.

Especially Flap Doodle.
American fathers are the best fol-
lows on earth. In addition to paying
millinery bills they have cheerfully
given their daughters more than \$200,

PRESIDENT HAS
BIG CELEBRATION

ROOSEVELT IS BUT FORTY FIVE
YEARS OLD.

ANNIVERSARY OF BIRTH TODAY

He is the First President Who Ever
Celebrated So Young a Birthday
in the White House.

(Special By Scripps-McIntee.)
Washington, Oct. 27.—Today is
President Roosevelt's forty-fifth
birthday and he has been deluged
with presents from his immediate
family and many of his intimate
friends. Telegrams from all have
been received also.

Youngest President
To President Roosevelt belongs
the unique distinction of being the
youngest president who has cele-
brated his birthday in the White
House. The president has made no
special plans to celebrate his birth-
day particularly.

WAS KILLED BY
SULTAN'S DELAY

Governor, Menaced by Foes, Commits
Suicide Rather Than Be
a Prisoner.

Constantinople, Oct. 27.—It is re-
ported that Loufi Pasha, military
governor of the province of Azir, on
the Red sea and adjoining Yemen,
Arabia, committed suicide in de-
spair because the government at
Constantinople ignored his repeated
demands for reinforcements. The
refusal to send aid was followed by
a general uprising in Azir, in which
the civil governor of the province
was killed and a battalion of troops
cut up. Reinforcements are now
being sent to Azir.

VATICAN WILL BE
WELL REPRESENTED

Pope Pius Has Decided To Be Well
Represented at St. Louis
Fair.

Rome, Oct. 27.—The participation
of the holy see in the St. Louis ex-
position is about to be definitely an-
nounced. The negotiations to this
end, which were initiated by Rev.
Dennis R. O'Connell, rector of the
Catholic university at Washington,
are to be continued by A. E. Curtis
of Washington, who is in Rome for
that purpose, and have resulted in
an understanding with the vatican
to send a high dignitary of the
church to represent it at St. Louis.
Mr. Curtis will confer with Father
Francis Ehrle, librarian at the vati-
can, as to the best objects to be
sent to the exposition and will agree
with him on all the particulars re-
garding the shipment of the exhibit
and its custody in St. Louis.

Mr. Curtis will soon have a pri-
vate audience of the pope and will
then receive an official communica-
tion setting forth the holy see's de-
cision to participate in the exposition.

WOULD HAVE BLOWN UP THE
SPANISH CORTEZ BUILDING

Plot To Dynamite The Building Used
By The Cortez Discovers in
Madrid.

(Special By Scripps-McIntee.)
Madrid, Oct. 27th.—A sensation
was discovered today by a plot to
blow up the Cortez building with dy-
namite. Fearful lest the plot
would carry a close guard has been
set about the building.

British Army Recruits.

The British army under the new
scheme requires 50,000 recruits an-
nually. According to the director-
general, only 68,000 are ex-
amined annually, and of these about
23,500 are rejected, giving a deficiency
of 5,500 a year, which England hopes
to make up by colonial assistance.

LONDON HAS A
POLITICAL CRIME

PRESIDENT OF THE AMERICAN
SOCIETY CRUELLY KILLED.

THE ASSASSIN HAS ESCAPED

Believed He Belonged to the Oppos-
ing Political Party of
Armenia.

(Special By Scripps-McIntee.)
London, Oct. 27.—Sagouni Sa-
gouni, president of the Armenian re-
volutionary society in London, was
murdered in the suburb of Nunhead
last night. The murderer made
good his escape but left his weapon,
a revolver, behind him.

Political Significance
The revolver was made in New
York and the death is supposed to
have been brought about by a political
enemy of the leader by a rival
Armenian society. Sagouni was
very wealthy and well thought of by
all who knew him well.

AMERICAN CONSUL
ARE ASKED FOR

Austro Hungary Suggests Two More
Desirable Locations for
Americans.

Vienna, Oct. 27.—The Austro-
Hungarian foreign office is most de-
sireous that the United States shall
increase the number of their consul-
ates in the dual monarchy. Two lo-
cations suggested are Lemberg, in
Galicia and Innsbruck, in the Aus-
trian Tyrol, the latter because of the
annually increasing number of Am-
erican tourists in the Tyrol and the
former because the appointment of
an American consul there is consid-
ered to be especially urgent in
view of the heavy emigration from
Galicia to the United States.

CONSUL WAS IN
HIS OWN RIGHT

Nevertheless, His Insult to the
Railroad Official Was Too
Free.

Rome, Oct. 27.—From the political
inquiry it appears that Richmond
Pearson, formerly United States
consul at Genoa and now minister
to Persia, who as announced Satur-
day was fined in default of \$60 and
\$15 costs for insulting an Italian
railroad official on Dec. 2, 1902, was
completely within his right in com-
plaining of the behavior of the rail-
road official referred to, but it is al-
leged that Mr. Pearson put himself
in the wrong by insulting the officer.

Mr. Pearson claims the immunity
enjoyed by the diplomatic body,
while it seems when the incident oc-
curred he had not yet been appoint-
ed a minister to Persia. It is also
asserted that his letter to the United
States embassy here asking to
have the sentence annulled is in
such form that it cannot be shown
to the Italian minister of foreign af-
fairs.

SECOND BOAT IS FOUND WITH
8 SURVIVORS NEARLY DEAD

Men Who Escaped Death on the
French Bark Arrive
Safely.

(Special By Scripps-McIntee.)
Honolulu, Oct. 27.—The second
boat of the French bark Connetable
De Richmond was picked up yester-
day. It contained eight of the crew.
All were alive but were nearly
starved for lack of food.

Time.

been received to shut down eleven
collieries operated by the Reading
company. Seven thousand men and
boys will be idle for some time.

PLEASANT PARTY
WAS A SURPRISE

Mr. and Mrs. Con McDonald the
Recipients of a Unique
Surprise Party.

Mr. and Mrs. Con McDonald were
the recipients of a pleasant sur-
prise last evening by the members
of Rebekah Lodge No. 171, who as-
sembled at their Wisconsin street
home apparently to attend another
surprise party planned and then po-
litely notified Mr. and Mrs. McDon-
ald that they had come to help them
celebrate their twenty-first anniver-
sary of their marriage. The affair
was a complete surprise to Mrs.
McDonald, who had made prepara-
tions to go with the lodge to another
member's house for a similar sur-
prise. The evening was delightful-
ly spent at chuck and later the lad-
ies opened their well-filled baskets
and completed the surprise by serv-
ing a delicious lunch. One amusing
feature of the evening was the fact
that the lodge had purchased an el-
aborate clock for presentation to Mr.
and Mrs. McDonald and for fear it
would be seen too soon had left it
outside the house. Whether for a
joke or for malicious purposes some
unknown party stole the clock and
it was not until after the guests had
departed that Officer Benekis was
able to find it and return it to Mr.
and Mrs. McDonald. Those present
were:

Messrs. and Mesdames J. W.
Clark, B. F. Blanchard, O. C. Brun-
son, Will Parish, R. G. Merrill, Geo.
Dacey, A. Swift, J. W. Ellis, John

Scott, J. H. Harper, Ellsworth Par-
ish, Verne Merrill, Mesdames F. F.

man, Geo. Slightman, Josie Tarn-
baugh, Misses Grace Conroy, Laura

OUTSIDE BREWERS
MUST PAY QUICK

License To Be in Before Next Council
Meeting—Sewer in Fourth
Ward.

Application was made at the coun-
cil meeting by David Jeffris for per-
mission to erect a one-story frame
building in the rear of the Grand Ho-
tel, to be used as a sample room.
The structure had been started sev-
eral days ago. As the site is inside
of the fire limits the request was re-
fused.

A motion was made by Alderman
Salo that the city attorney notify the
outside brewers in the city that
they must present application and
license money before the next meet-
ing of the council or they will be
prosecuted. After some discussion,
L. F. Holloway was appointed as as-
sistant street commissioner for the
balance of the year to take care of
the defective sidewalks. Arrange-
ments were made for him to have
the use of the horse and wagon be-
longing to the city.

The construction of a storm sewer
in the Fourth ward, near the Fourth
ward park, from Park avenue and
Rock street to the river, and that
two blocks of the sewer be con-
structed this fall. The report was
adopted.

Again Adjourned: The hearing
of the evidence in the action of Ju-
lia Myers vs. Johnson & Stevens was
concluded yesterday and the case
was adjourned until October 29 for
a decision.

STATE NOTES

The Beloit college freshmen held
their yearly banquet Monday night.
The Hill Lumber company's sort-
ing shed at Oconto burned on Mon-
day, the loss being \$2,000.

The Elks of Green Bay must pay
taxes on their clubhouse, Judge Has-
tings having decided this is a social
body.

In the circuit court at Racine Mar-
tin Wolentorski began a suit against
the Milwaukee railroad for \$15,000,
having been struck by a passenger
train.

Representatives of a big Chicago
soap company have been in Racine
looking for ground upon which to
build a branch factory on account of
labor troubles.

Rosenblatt & Sons' clothing fac-
tory at Beloit has shut down indef-
initely, and the proprietors give as
reason that the price of cotton goods
and the union wage scale do not
permit them to manufacture at a
profit.

Twenty members of the sopho-
more class of Lawrence university
have made personal apology to the
faculty for their part in the poster
directed against the freshmen last
week and the subsequent painting of
their class numerals about the cam-
pus.

Attorney Wallace Ingalls of Ra-
cine has announced that the suit of
A. J. Brinsley of Kenosha, formerly
clerk of the Kenosha camp of the
Modern Woodmen, against promi-
nent members of the Kenosha camp
on charge of false arrest, will be ta-
ken to the supreme court.

The will of the late Mary Eliza
Gibbs, formerly of the town of Bris-
tol, has been admitted to probate in
the county court at Kenosha county.
It had been expected that the will
would be contested by Mrs. Harrie
Moore of Milwaukee, but it was dis-
covered that Mrs. Moore had never
been legally adopted.

BRAVE CAPTAIN
LOSES HIS LIFE

Commander of the Ves-
sel, William F. Sau-
ber, Goes Down
with Ship.

MEN HAD ESCAPED

The Captain Sticks to the
Post to the Last, Going
Down with His
Loved Vessel.

Scout Ste. Marie, Mich., Oct. 27.—
After battling with the terrific gale
for twenty hours with the steamer
Yale standing by for half that time
unable to land aid, the steamer Wil-
liam F. Sauber was sent to the bottom
of Lake Superior Monday morning by
the explosion of its boilers. Capt. W.
E. Morris of Cleveland went down
with his ship, and Frank Robinson, an
officer, was dragged from the life boat
after he had once been saved, and he,
too, was swept away.

The Sauber was struck by the gale
while in midlake Sunday morning.
Capt. Morris turned the steamer's
head into the teeth of the gale, de-
termined to fight it out. The storm
rapidly increased in violence, and the
heavy seas pounded the steamer's hull
until the seams were parted and the
water began to fill the hold.

Signals of Distress.
The pumps fought the rising water
all day Sunday, but without avail, and
when night fell the flood in the steam-
er's hold was gaining.

"We're in serious danger, boys,"
said Capt. Morris to his crew on re-
ceiving word that the pumps were los-
ing their battle below decks. "Get
out some rockets and set fire and
start the whistle giving distress sig-
nals."

As the first rocket shot skyward the
booming whistle of the Sauber was an-
swered and the steamer Yale, five
miles away, headed to succor the
plunging vessel. In the furious gale
both captains knew the danger of
braving the boats nearer than a hun-
dred yards, and at that distance meg-
aphones were used in communicating
between the struggling steamers.

Captain is a Hero.
"We're good for hours yet," was the
message at midnight, but those which
followed from the bridge of the Sauber
grew less reassuring. At 2:30
o'clock Monday morning Capt. Morris
last word to the Yale was that half
an hour would see the end of the Sauber.
With this the Sauber's crew pre-
pared the lifeboats and all steam
was cranked on the Yale in prepara-
tion for rescue work.

Capt. Morris stuck to the bridge of
the Sauber until all his men were in
the lifeboats. The steamer was fast
settling and the sailors shouted to
him to hurry. He had not reached
the side of the boat when an ava-
lanche of water poured into the en-
gine room. Immediately there was
an explosion and the Sauber, with
decks shattered and sides blown
away, sank to the bottom.

DOCTOR ROUX WON
LARGEST PRIZE

Asks That the Twenty Thousand Dol-
lars Be Given for Scientific
Research.

Paris, Oct. 27.—At the annual pub-
lic session of the academy today
President Herou announced a num-
ber of prizes, including \$1,400 for
experiments at the Sorbonne labora-
tory to settle the differences be-
tween French and American scien-
tists in connection with electrody-
namics.

The academy awarded the prize of
\$20,000 for the most remarkable
scientific work to Dr. Roux, who con-
tinues to carry out the work begun
by the late Professor Pasteur. Dr.
Roux accepted the prize on condi-
tion that the amount be devoted to
the scientific investigation of the
Pasteur institute.

JAPAN AND BEAR
HAVE AGREED

Compromise Plan Is Reached by the
Diplomatic Agents of Two
Countries.

London, Oct. 27.—Official infor-
mation from both Tokio and St. Pe-
tersburg, says the Berlin correspon-
dent of the Standard, is to the effect
that drafts of the Russian-Japanese
convention have been approved by
the czar and Count Lamodorf, the
Russian foreign minister. Only
slight alterations in these drafts are
needed to effect a settlement of all
difficulties by amicable compromise.

MONROE DOCTRINE.

It will be exactly eighty years in December next since James Monroe in his seventh annual message to congress, laid down the famous Monroe doctrine. The only serious attempt on the part of a European power to set it at defiance was when the third Napoleon, taking the opportunity presented by the Civil war, endeavored to establish an empire in Mexico and landed a French army in that country, under the command of his most famous and brilliant marshal. When the conflict between the states came to a close the French troops were still in Mexico, but preparations were immediately made to withdraw them on an intimation from Secretary Seward that their continued occupation of Mexico meant a conflict with the United States. The next country to put us to the test with respect to the Monroe policy as Mr. Hay the present secretary of the state wishes to define it, was Great Britain in the Venezuela boundary dispute. Grover Cleveland's magnificent message settled that business in prompt order. Is the doctrine to be again threatened by a third European power? That is the problem which is occupying more attention in administration circles here at the present time than all others put together. The officials of the war and navy departments look solemn when spoken to on the subject. To all inquiries about it they will give neither a year nor a nay. The reason probably is that they know no more on the subject than the man on the street, but their mysterious silence has the effect of creating an impression among the unthinking that some momentous secret is locked up in their official bosom. A leading Democratic member of one of the foreign committees to whom I mentioned the matter said: "I have spent a couple of days in investigating the thing, and I cannot find that there is the slightest foundation for the report that Germany has any sinister designs in South America. The suggestion is absurd on the face of it. Germany could not retain control of any one of the South American republics, even if she could succeed in obtaining it. German immigrants could not be induced to go to such a possession with the entire population hostile to them. Above all, the Kaiser knows that before he can get a foot of territory there he would have to beat the United States, which is too much of an undertaking even for the great war lord."

TRADE WITH CHINA.

The trade of the United States with Manchuria, China, shows no perceptible change in 1902 as compared with 1901. Figures just compiled by the Department of Commerce and Labor through its Bureau of Statistics show that the total imports into the port of Newchwang, the principal doorway through which Manchuria, is at present supplied, amounted in 1902 to 18 million hankwan taels in value, against 17 million in 1901 and 8 millions in 1900. The official report of the Chinese government does not specify all classes of merchandise received into Newchwang from the United States, but does specify all principal articles—American jeans, drills, sheetings, and kerosenes. The total value of these four articles of American production reported as brought into Newchwang in 1902, either coming direct from the United States or from other parts of China, was 6,118,920 hankwan taels, which at the official valuation of the hankwan taels in 1902 would make the total value in United States currency \$3,854,920. (The average value of hankwan tael during 1902 is shown by the Chinese government in its report as 63 cents.) A comparison of these four articles from the United States imported into Newchwang in 1902 with the figures of the same articles in preceding years shows that the total for 1902 was practically the same as that of

1900, or of the years preceeding the year 1909.

THE DOWIE MOVEMENT.

The best advertised man in the country today is Dowie, and yet he is neither contented nor happy. He has discovered that New York is not Chicago, and that the conservative people of Gotham have but little time for his visionary schemes. There is no accounting for the freaks of religious fanaticism. The Doukhobors of Winnipeg, representative one of the most extreme classes. The disciples of this peculiar faith were so weak in mind and intelligence that they were incompetent to take care of themselves, and when they were stranded in the snow and ice of a Manitoba climate, they would have died from exposure had not the Canadian government come to their relief. The late experience of the Dowies, demonstrate that they belong to the same class of fanatics, possessing perhaps a little more intelligence, but carried away with zeal that lacks both judgment and common sense. They were ready to follow blindly a leader in whom they had unlimited confidence. It did not occur to them that there was any danger to health in camping in Madison Square Garden, until hundreds of them were made sick by exposure. It is simply the Doukhobors' experience repeated with New York instead of Winnipeg, as a camping ground.

DOWIES' New York mission is a failure, and it is well for the country that it is.

If he will remove his headquarters to Australia, or any other foreign country, it will be a good thing for the people of the United States. While his followers are sincere they can hardly be called responsible, and it is a pitiable comment on the intelligence of the nation, that they are so numerous.

A MODEL INDUSTRY.

The Thomas G. Plant company of Boston, operate what is known as the Queen Quality shoe factory. While their business is not conducted on the profit sharing plan exclusively, yet it has many unique features in the way of looking after the health and welfare of employees, that are commendable. The company employs 2,800 hands, and is the largest shoe factory in the world. Labor troubles are never in evidence and strikes are unknown. The Boston Sunday Herald recently published an account of the methods employed many of which could be copied to advantage by employers of labor. The Herald says: "Take, as a single feature, its profit sharing, sick and death relief and saving fund department, which is a model of organization. It operates along the lines of encouraging the workman to higher efforts. He receives special consideration in proportion as he is frugal, industrious, neat and constant at work. In the final division of profits, in promotions, in the matter of steady employment, and in all cases of discharge, preference is given to the most deserving members of this department. The 'Book of Regulations' is a model of what such regulations should be, and is to be heartily commended to every employer of labor."

Take another instance. One of the most successful of the co-operative departments is the recreation department. The gymnasium is very complete; it is in charge of one of the best professional instructors in the country; there is also a woman instructor from the Boston Normal school of gymnastics. The methods of class work are admirable. Sixty members can be drilled in evolution on the floor at one time. Sixty baths are provided, controlled from a central point with devices for graduation of temperature of the water. All have separate dressing rooms. Gymnasium suits are dried in large flume by the hot fresh air system. There are four or five different classes each evening. About one-half of 2,800 employees are members of the gymnasium.

The library and reading room is another feature. It is in charge of a regular attendant librarian. It is open at all times, and is a branch of the public library of the city of Boston.

The bowling alleys and billiard room for men, and the music, dances and recreation rooms for women need not be specially described. They are very popular with the employees. There is a model lunch room, which supplies clean, healthful food at the actual cost of its preparation. The company provides for its operatives two free beds at the Emergency hospital, and all cases requiring surgical attention are sent there, with no cost to the individual. It provides at the factory a couch and a woman attendant; any one taken sick on the premises is at once made comfortable.

THE R. F. D. CARRIER'S DREAM.

By Mrs. H. F. Hadley, Eau Claire. I dreamed I carried mail on a route. Where the roads were straight and good,

The rig never broke or the horse fell down, In a puddle of slush and mud.

I dreamed the people were always pleased And never once said "You're late" Nor the mail boxes put behind the trees

Or the other side of the gate. They didn't ask me to bring express, Or to try and match some silk, And call for the laundry, groceries and nails,

And take my pay in butter and milk. When the wintry blasts blew cold and chill, And the roads were blocked with snow,

They turned out with shovels to clear the track, For the mail man must surely go. They did not put cents with mail in the box,

To tumble down in the snow And freeze my fingers with fishing around, For 'twas stamped all ready to go.

I hopefully plod from day to day, Whether wind, or rain, or shine, And trust that it may yet be realized That beautiful vision of mine.

Profit Talks To Merchants

The best light is not the cheapest but the cost of any but electric light is not to be measured by any meter other than the shrinkage of the merchant's profits. Signs and excellent window lighting are his best two advertisers.

Both are now admitted failures unless the possibilities of incandescent electric light are made use of.

Janesville is justly proud of its retail stores but illuminated signs are but sparsely used and many dark and poorly lighted windows are a source of loss to their owners.

MILTON

Milton, Oct. 27.—Last week was a busy one in car load freight at this station and it supt. Eldridge has found it convenient to put in an appearance he would have conceded the necessity of having three men on duty. The shipments aggregated cars of beets, 250 tons by the Wisconsin Sugar Co., five cars of stock by Vincent and Hassenger, three cars of hay by F. C. Monroe one car of grain by E. L. Barnes and two cars of hay by B. F. Hudson a total of twenty one cars for the week.

Milton college football players were up against the real thing, in their game with Marquette college at Milwaukee on Thursday and were in great luck in being able to score against their opponents and holding the figures down to 32 to 5. Taking into consideration the fact that the college boys have been without the services of a coach all season they did well and have every reason to feel encouraged to win future games.

The Milwaukee Sentinel says: "The Milton players were not as heavy as the locals and were not as fast. The backs showed no form and gave poor interference for the runner. The backs were too far away from the quarter back and as a result there was a number of costly fumbles. Bills at quarter played well on the offensive but his passing was rather poor. Robinson at right half made several fine tackles. Risdon the right end, put up the best game for the outsiders and his spectacular run of 60 yards was one of the features of the game, on which Milton secured." The Free Press said: "The sensation of the game came near its close. The ball was on Milton's 25 yard line and in the visitors possession. The ball was given to the half for a straight plunge, when he turned suddenly and passed the ball to Risdon. The little end run like a deer, throwing off Howe and passing Clancey and scoring after a 75 yard run. Capt. Dilse played half the defensive game for Milton and was in every play until hurt near the close of the second half."

LAST SAD RITES FOR JUDGE PATTEN

Many Sorrowing Friends Gathered at
Home This Afternoon—Floral
Offerings Beautiful.

The funeral of the late Lafayette Patten was held from the East street home at half past two o'clock this afternoon. Many sorrowing friends from near and far gathered there to pay their last respects to the dead. The floral offerings were exquisitely beautiful; great clusters of roses and carnations almost concealed the casket. One of the pieces was a harp of roses from the Janesville Bar association.

Rev. Barrington read the service and a quartette consisting of Cove Van Kirk, George Paris, Mrs. Yates and Mrs. Clark, sang. The pallbearers were William Raper, Pliny Norcross, Edward F. Carpenter and William Wheeler. Among those present at the services were: Mr. and Mrs. J. P. Root of Chicago, Mrs. Landers and Mrs. Charles D. Atwood of Madison, and Mr. Wixom of Chicago.

Mrs. Charlotte Calkins
After an illness of a few days Mrs. Charlotte C. Calkins passed away this morning at 12:20 o'clock, surrounded by sorrowing relatives. The deceased was born April 22, 1827 in Hamilton, Canada. In her girlhood she moved to Rochester, N. Y., where in 1849 she was married to Henry Calkins. In 1880 they moved to this city, after burying in 1879 their only child and daughter. For eight years their well known Pleasant street home was a happy center for their many friends. In 1887 she sustained the loss of her husband who had established himself with the moral and religious interests of the city, serving as elder in the First Presbyterian church for several years. Though 76 years of age the deceased was active to within a few days of her death. Her activity and intense interest in life kept her young beyond her years. She will be missed by the church to which she was devoted, as well as in the home, where her presence was like a ray of sunshine.

Besides a daughter, Matilda, and a son, E. M. Calkins, there are left to mourn one sister, Mrs. E. M. Luther of Chicago, and three brothers, J. S. and H. S. Holten of Crown Point, Ind., and D. S. Holten of Oregon. The funeral will be held from her late home on Pleasant street Thursday afternoon at 2:30.

Mrs. Thomas Croft
The funeral services of the late Mrs. Thomas Croft were held at St. Patrick's church Monday morning. Rev. James McGlundy officiating. There were many beautiful floral offerings, including set pieces from the Rock River Women's mill employees and the Des Moines Elks. The pallbearers were George Root, James Cluff, Patrick Steed and Anton Bier. Those from without the city who attended the services were P. H. Burns of Des Moines, a brother of the deceased, Mrs. Ellen Burns and Miss Anna Boyce of Chicago, and Mrs. Charles Robbins and daughter of Waukegan.

CADET SLOAT IS NOT FREE-LANCE

Rockford Salvation Army Post Has
Made Much Ado About Nothing—Acting Under Orders.

Rockford Salvation Army circles are represented by the Register-Gazette of that city as having worked themselves into a paroxysm of excitement over the supposed invasion of Janesville by Cadet Sloat of that city, acting without orders, and without a commission. The cadet has never represented himself to be anything more than an acting lieutenant and has been working with Captain and Mrs. W. O. Hillborn who were sent here under orders from headquarters to do what they could to revive the Janesville post.

**GALBRAITH NOT TO
LEAVE JANESVILLE**
No Foundation in Report That Company Will Move Out of State.

The Galbraiths are not going to leave Janesville. There has been a report going the rounds to the effect that owing to the new state law concerning the purchasing of valuable horses the company found it was to their advantage to move from Wisconsin soil. The fact that they were to leave, however, was denied by Mr. Galbraith this morning. He stated that their association in this city and state were strong owing to the number of years they had been in business here and that at present there was no thought of leaving in spite of the new law.

CALENDAR AT MYERS GRAND

Oct. 27.—Stetson's "Uncle Tom's Cabin."
Oct. 31.—Andrew Robson in "Richard Carvel."

At the Myers Grand tonight we are to have Uncle Tom's Cabin on a larger and grander scale than ever before. L. W. Wachburn's big \$30,000 production is certainly the most pretentious that has ever been given at the Myers Grand. Stowe's immortal work. It cost \$30,000 to put it on

will make a special grand street parade every day during its stay. Its brass bands, pianinos and golden chariots attract much attention.

The vogue of Winston Churchill's "Richard Carvel," a story of the day just preceding and the early portion of our war for independence with Great Britain was as a book very great. Thousands of copies were sold and it was generally accounted one of the books of the year. Made into a play by Edward Rose "Rich-

the stage. Scenically it has never been equalled. The cast numbers 60 people, at the head of which is the infatigable Frank Leo, the prince of black face characters, actors and minstrel men without a peer. The balance of the company has been selected with special care, and it is said to be unsurpassed since the day of Newton Gotch, M. Stokwell and Eva Miller. Many bright specialties enliven the scenes. Buck and wing dancing and jubilee shouting are a special feature. The company

and Carvel" has been even more successful than it was in its form as a novel. It has been played for the past two years by Andrew Robson, one of the foremost actors on the stage at the present time and he will continue this year to present it. The production is reported to be massive and elaborate, while the costumes are brilliant and correct. Mr. Robson will be seen at Myers Grand this week. His supporting company is reported to be an excellent one.

HOW TO HAVE A SWEET BREATH

What makes a bad breath? Some say bad teeth. Some say a bad stomach. These certainly help to make a bad breath. But more than anything else tending to breath pollution is poor blood—blood laden with poisonous gases that are poured into the lungs through its delicate walls from the vast network of capillaries which surround it. These foul gases are excretions from some sluggish gland, usually the liver or intestines.

A food that will stimulate these glands to regular and normal action will sweeten the blood and sweeten the breath. Such a food is Shredded Wheat Biscuit, which contains in perfect balance all those materials necessary to a normal bodily condition. When you meet a person who eats Shredded Wheat you may reasonably assume that such person is blessed with healthy digestion, pure blood, and a sweet breath. Have you tried this most delicious of all cereal foods?

"Shredded Wheat is invaluable not only as a breakfast food, but in various forms of cooking." Mrs. W. J. Warner, Newton, N. J.
